

ONA Update
LHSC RN
August 30, 2020

ATTENTION RN'S

With the last round of central bargaining Article 14.06 was amended to provide for double time (2x regular straight time hourly rate) when called back to work. This would apply to all nurses who are on stand-by (on-call) and must return to work, and is retroactive to April 1, 2020. We are also looking into other situations where this may apply.

If you are not receiving double time when on stand-by and are called back to work, or you have not received your retroactive payment for previous call back hours, please contact the Union Office for assistance.
