

June 23, 2022

Hi All,

I wish to inform you that over the next two months I will be transitioning back to my role as a nurse in the MSICU. As a Nurse, it was important for me not to lose my skills that made me who I am. The MSICU has been my home unit for the past 21 years, this decision was not made lightly but in my heart it feels right. I am excited about my return.

The hard part is also deciding to leave something I also I feel passionate about, that's ONA. My work within ONA started back in 2011 as a member of the organizing team. For the next 8 years, I managed the Professional responsibility portfolio and more recent the Bargaining Unit President. I also participated on other committees such as a JHSC, HAC, and Negotiations. Representing the members of this bargaining unit, will always be something I will look back on with pride. As for ONA, the work will continue, and members need to know that they will continue to receive high level representation by their respected representative.

All the best,

A handwritten signature in black ink, appearing to read 'James', written in a cursive style.
